DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 recites the limitation "shut-off valve" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected *as best understood* under 35 U.S.C. 102(b) as being anticipated by Shaw (6,276,148). Shaw discloses a heat pump system for heating and cooling and comprising: an outdoor coil (30), an indoor coil (26), a compressor (24), an economizer (28), a reversing valve (80), a valves (40,44,78) and a line (38/50) that taps into compressor from said economizers. Furthermore the line (38) receives refrigerant from a condenser or evaporator depending on mode and routes it to the economizer and then through a mail coil.
